

How to use EFT with Serious Illness Course with Marie Holliday.

Marie Holliday is your Trainer on this 2 day course and is looking forward to sharing her skills, knowledge and experience with over 20 years of 'tips' in this area of working as a speciality with Serious Illness and Chronic Disease.

Marie herself overcame debilitating symptoms over 20 years ago when she recovered from a brain haemorrhage with EFT, when the medical world couldn't help her anymore. This in itself seemed like a miracle then and she believes saved her life. Since then she has worked for many years as an EFT Master Trainer of Trainers with EFT International with serious illnesses & additionally witnessed 'recoveries' she wouldn't have thought possible.

Course Pre-Requisite:

You must be a qualified Level 2 Practitioner to take this workshop

What you will gain from the Workshop:

- Work more confidently in an informed way
- You will start to have a more confident approach
- Work in a safe manner
- Work in a professional manner
